

Carnebello Dry Food Poultry XL croquette

Dry Food

Complete food for adult dogs of large breeds

Our Eggersmann Carnebello Dry Food Poultry XL croquette is a high-quality complete dog food that is particularly suitable for larger dogs. The larger kibble size prevents dogs from eating too quickly, which can cause choking. These tasty kibble nuggets contain poultry, which is high in protein, as well as nutritious grains, ensuring that your dog has all the nutrients and vitamins it needs. The natural ingredients are easy to digest and perfectly attuned to the nutritional needs of larger breeds. To support a sound action of the bowels and a balanced gut flora, we added apple pomace, a valuable source of dietary fibre with prebiotic effects. This well-balanced and tasty formula, with moderate protein and an appropriate fat content, is enriched with herbs. This means that by giving your dog our dry food, you are providing it with a diet that is both tasty and nutritious. Our Eggersmann Carnebello Dry Food Poultry XL croquette is suitable for all regularly active, adult dogs of larger breeds.
